PROFESSIONAL SUMMARY.

Highly motivated and aspiring Frontend Web Developer with a strong foundation in Computer Science, currently I'm pursuing a Bachelor's degree at Mount Kenya University. Actively enrolled in the Power Learn Project (PLP) Software Development Program, gaining hands on experience in building robust and intuitive web solutions. Passionate about leveraging technology to solve complex problems, create intuitive user interfaces, and contribute to innovative projects. I enjoy collaborating with diverse individuals and learning from new experiences, driven by a continuous desire to grow and make a positive impact. Eager to grow into a skilled Full-Stack Developer.

SKILLS

Programming Languages:

HTML5, CSS, JavaScript, Python, PHP, C, SQL

Frontend Development:

React.js, Responsive Design

Tools and Version control:

Git, GitHub and VS Code

Soft Skills:

Problem Solving, Teamwork & Collaboration, Effective Communication, Adaptability, Continuous Learning and Interpersonal Skills.

PROJECTS

Portfolio Website

A website to showcase my skills, projects, education and interests. It applies a clear, simple and user-friendly interface.

https://raphael-kamau.github.io/personal_portfolio/

Technologies used: HTML and CSS.

Simple Music Dashboard

A straight forward web-based application designed to play audio music, featuring a clean and intuitive user interface for seamless experience.

Technologies used: HTML, CSS and JavaScript.

https://raphael-kamau.github.io/music_dashboard/

Game Engine

A foundational car game engine developed to power a simple car game, creating with beginner programs to implement game development concept.

Implemented using Python.

https://raphael-kamau.github.io/game_engine/

A Farm Website

Simple website created for a farmer, designed to showcase farmer's activities, highlight produce, and provide information about the farm's operations.

Used HTML and CSS.
